

GENERAL INFORMATION

All precinct information is current as of May 11, 2006. All district information reflects the new districts as created after the 2002 Federal, State and Local redistricting.

This map book is a product of the Orange County Supervisor of Elections Office and is designed for general use by the public. It is not intended to be used for determining a voter precinct or jurisdiction.

Precinct and district lines are as accurate as possible with the map scale used for each. The original street map base was obtained from the Orange County GIS Department and has been updated and maintained by the Elections office using MapInfo mapping software.

For more information about this map book or other map products, please contact the Mapping Department. All inquiries should be directed to:
